</table>

All classes will be held on the Senatobia campus unless noted otherwise.

Class listings and information can be found at www.northwestms.edu.
Learning the Art of Stained Glass
This class is designed for the beginner and intermediate student who is interested in learning the art of stained glass. Students will master pattern cutting, layout, glass cutting, grinding, foiling and soldering. The art of creating a stained glass piece is a great stress reliever and lots of fun. Join our class and have fun while you meet others who share this same interest. The approximate cost of supplies will be $100 in addition to the class fee.

Hand Building in Pottery
This eight-week class is designed to show students the possibilities and diversity of hand-building techniques utilized in making pottery. Methods in pinching, coiling, stiff slab and soft slab techniques will be explored through a variety of functional ceramics forms. Projects will include cups, bowls and platters, with the possibility of other forms being explored. Pots will be fired on campus by the instructor and students will glaze their own pottery. Clay and glazes will be provided but students are expected to provide their own pottery tools, which can be purchased at the Northwest Bookstore for $15. This class is open to all experience levels from beginning through advanced.

Digital Photography and Photoshop Elements 9
If you have ever wondered how to get pictures off of your digital camera, fix blemishes on photos or why your photos are too light or dark, this is the class for you. In this class, you will learn how to use some of the settings on your camera and how to get the photos off of your camera in order to be able to send them to friends or family. No matter what level you are as a photographer, you will learn how to take better photos and how to modify and print your photos.

Social Media 101
Social media offers users a chance to connect, network and communicate online with friends, relatives and professional acquaintances. The purpose of this class is to provide a basic understanding of how to utilize the two most widely used social networking platforms: Facebook and Twitter. Each lesson will provide an overview covering how to open an account, how to maximize your profile, how to build and interact with a network, upload video and pictures and how to use basic tools/applications designed to enhance your overall experience.

Communicating Effectively with Parents (for teachers)
Effective communication is important in education. With an increase of expectations on teachers to be responsible for student achievement and test scores, it is imperative for teachers to engage parents positively in this effort. This class will focus on teachers building those bridges with parents.

Microsoft Word
You can use Microsoft Word for more than just a letter or a memo. You can create labels, flyers, newsletters and more. With the use of templates you can simply create projects that will be useful for the classroom and other areas. Students will learn how to use a lot of the functions in Microsoft Word, including changing appearance, mail merge, working with charts, tables, columns and graphics and editing and proofreading.

Creating a Photo Book
Have you ever wanted to make a photo book of your favorite vacation, family holiday or special event? Now you can learn how from someone who knows exactly how to do it. In this class, you will learn to scan and transfer photos from a camera to the computer and download, install and work with the photo book software. You will also be able to get information on how to compile your own photo book and use practical, yet creative tips for the perfect writing and layout to make your photo book look both professional and personal. Lastly, you will learn how to get the photo book printed so that you can show it off to your friends and family.

Tennis
Have you ever wanted to learn how to play tennis? Well, now is your chance! Don’t let this opportunity pass you by to do something that you have wanted to do for years. This four-week class will cover the fundamentals of the game, including rules and etiquette, grip, forehand, backhand and serves. Match games will be played during the last week and you will learn to enjoy and have fun playing the game of tennis.
Self-Defense for Women
In a world of ever-increasing crime and violence, you never know when you will need to have the skills necessary to protect yourself. The course will cover basic self-defense techniques, including releases, punches and kicks, etc. Following training on how to avoid a confrontation, students will also be trained in weapons use, home defense and defensive/evasive driving. The focus will be on awareness, prevention and finally successfully ending a violent confrontation. (Note: you do not need to be in great physical condition to take this course, as an attacker does not allow us to “get in shape” before attacking.)

Bullying in the Classroom
Bullying is an issue (per both Legislators and public outcry) that needs to be addressed by schools today. What is bullying? What is cyber-bullying? What are some realistic and practical approaches to help reduce this problem? Come and join us in the dialogue on these questions and more related to this timely topic.

The Lazy Gardener
Do you ever think that you don’t have time for a beautiful yard? Come learn about the ways to grow wonderful plants that will take care of themselves without causing the owner so much trouble. Plants today have changed from the ones your grandmother used to plant, which makes them easier to care for. The companies who grow the plants we buy today are continually working to make the plants easier to maintain. Even companies that develop products to help maintain our beautiful yards are forever working to make products that were unavailable just a few decades ago. Growing flowers and plants is getting more fun every day. Come enjoy yourself!

Beading for Beginners
Come learn how to bead single and multiple strand jewelry on beading wire and make your own earrings. Color coordination, styles, lengths and how to make your own will be covered. We will use many types of beads, including glass, gemstone, pearls and shells. With what you learn in this class, you could start making fun gifts for friends and family!

Heartsaver CPR and AED with First Aid
This course is designed for those who are responsible for children’s health, including child care and foster care workers, teachers, recreation and other community staff, camp counselors, new parents, guardians and other care givers. The course covers pediatric first aid, adult, child and infant CPR with mask and adult and child AED (automated external defibrillator). Pediatric first-aid topics include eye injuries; fever; snake, spider, tick and animal bites or stings; injuries and medical emergencies.

Warm Glass for Cool People
Learn glass fusion and slumping in this four-week class. We’ll learn to score, break and layer glass and fuse in the kiln to make a contemporary dish, a picture frame and a set of coasters. On “Jewelry Night,” everyone will make a variety of beautiful pendants, bracelets and earrings using dichroic and iridescent glass. Finished items will make great holiday gifts, but you might not want to give them away!

eBay Selling
Learn to make a supplemental or full-time income from an eBay-trained Certified Education Specialist. This multimedia course will include eBay University’s own training materials and will cover selling basics and beyond, including research, opening and using a Paypal account, improving your listings with better descriptions and digital photography, security and post-sale activities such as billing and shipping. Save yourself from frustrating hours of pouring over tedious instructions. Learn from a long-time successful seller.
Oxford center instructor Katherine King (left) and her twin sister Margaret have written a book about life in 1950s Oxford. Photo by Justin Ford
Reading Roundtable provides a forum for lifelong learners to read and discuss a variety of books during the course of a semester. Discussions are led by librarians and faculty. Meetings are held the last Tuesday of each month at 2 p.m. in the R.C. Pugh Library on the Senatobia campus of Northwest Mississippi Community College.

All participants must fill out a registration form. Those wishing to receive copies of books to be discussed are asked to pay $5 per book, except for *Y’All Twins* by Katherine and Margaret King. These energetic ladies are currently traveling the country to sell their memoir and need our support. The price, including tax, is $21.35. Using a personal copy of the book or one from the public library is acceptable, but please be sure to register.

For further information or to obtain a form, please contact Maggie Moran, director of Learning Resources, at 662-562-3278 or e-mail at mmoran@northwestms.edu.

Funds supporting this program are donated by Senatobia’s premier institution, Sycamore Bank.

---

**Class Dates & Descriptions**

**August 28**

This tag-team memoir, *Y’All Twins?* opens with a teaser. Katherine and Margaret King’s mother made them matching outfits for that year’s school pictures. She was still sewing a button on when she instructed them to stay clean, tidy their hair and take off their jackets before the picture. On the back cover are the actual photos of both girls taken that day. One girl is a hot mess. You are to read the book and guess which twin is which. They will reveal in August.

**September 25**

Main character Josie Henderson loves water so much she becomes a scientist who studies dolphins. Her only problem is the alcohol that consumes her father and then her brother. Julia Glass said the author, “[she] can write fat and hot, then lush and tender, then just plain truthful and burning with heart.” Technical Services Librarian Crystal Giles, leads us in discussing *The Taste of Salt* by Martha Southgate.

**October 30**

Be ready to zip-line into the Amazon jungle after opening Ann Pathcett’s new book, *State of Wonder.* Readers will follow Dr. Marina Singh into the depths to probe a colleague’s mysterious death, while all along sharing thoughts on modern mycology. Library Director Maggie Moran dons her pith helmet to lead the expedition.

**November 27**

Nobel Prize Laureate Mario Vargas Llosa states, “The *Time in Between* by Maria Duenas is a wonderful novel, in the good old tradition, with intrigue, love, mystery and tended, audacious and well-drawn characters.” Reference Librarian Courtney Hicks, is excited about leading this door-stop book discussion. It has over 600 pages, but we hear they go fast.
CONTINUING EDUCATION TRIP
Join us as we experience Elvis Presley's Graceland in Memphis. We will be taking the Platinum Tour, which includes an audio-guided tour of Graceland Mansion and grounds and a self-guided tour of Elvis' two custom airplanes; The Elvis Presley Automobile Museum; ICON: The Influence of Elvis Presley; Elvis Lives: The King and Pop Culture Exhibit; Elvis on Tour and the ’68 Special Exhibit.

“ICON: The Influence of Elvis Presley” and “Elvis on Tour” are limited-time exhibits celebrating the life, career and legacy of Elvis in commemoration of the 35th anniversary of his death.

“ICON: The Influence of Elvis Presley” is presented by Fender and is located in the Sincerely Elvis Museum. The exhibit explores the King of Rock and Roll’s impact on other artists and popular culture as a whole with items from the collections of many of today’s biggest names in music and more. Some of the featured items include Bono’s “MacPhisto” suit from U2’s Zooropa performances and clothing from Carrie Underwood, Katy Perry, James Brown, Elton John, Wanda Jackson, Bruce Springsteen, Billy Joel and Ringo Starr.

The “Elvis on Tour” exhibit, located at Graceland Crossing, takes an in-depth look at the award-winning documentary released by MGM in 1972. This limited-time exhibit features artifacts such as the producer’s Golden Globe award, jewelry and stage clothing worn by Elvis during the concerts, rarely-seen photos, video and much more.

The Platinum Tour is approximately two and a half to three hours in length and involves a good bit of walking. The cost of the trip is $65 per person, which includes the cost of the tour and travel to and from Graceland from Senatobia. Lunch is not included in the fee. The group will eat lunch at Graceland, at each participant’s expense.

The deadline to register for the Graceland trip is Nov. 5.
This course provides an overview of the ACT format followed by a review of verbal and math fundamentals for solving typical test questions. Also discussed are management and test-taking strategies. Previous students of this course have raised their scores significantly. Students will need to bring a calculator, notebook and pen/pencil to the workshop.

Time: Monday and Tuesday, 6-9 p.m.
Location: Physical Science Building Addition, Room 308
Instructors: Beth Leishman & Cody Harville
Fee: $105 (textbook included)

Those interested may print a registration form from our website at www.northwestms.edu. Then simply mail it, along with your payment, to the address that prints below the form. Confirmations will not be sent, however people are welcome to e-mail Pam Wooten at pwooten@northwestms.edu to confirm that your payment was received.

Places are limited, so early registration is strongly recommended
Accreditation
Northwest Mississippi Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the Associate of Arts degree, the Associate of Applied Science degree, and certificates in career education. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA, 30033-4097, or call (404) 679-4500 for questions about the accreditation of Northwest Mississippi Community College.

Northwest Mississippi Community College does not discriminate on the basis of race, color, national origin, sex, religion, age, disability or status as a veteran or disabled veteran in employment, programs, or provision of services. Compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act is coordinated by Mr. Michael Dottorey, Disability Support Services Coordinator, McLendon Student Center, P.O. Box 5555, Highway 51 North, Senatobia, Mississippi 38668, telephone number 662-562-3309, e-mail address mldottorey@northwestms.edu. Compliance with Title II of the Age Discrimination Act and Title IX of the Education Amendments of 1972 is coordinated by Mr. Gary Mosley, Vice President for Fiscal Affairs, James P. McCormick Administration Building, P.O. Box 7017, 4975 Highway 51 North, Senatobia, Mississippi, 38668, telephone number 662-562-3216, e-mail address gtmosley@northwestms.edu.

Class Refunds
Registration fees are refunded in full for the Northwest Continuing Education courses when: (1) the class for which an enrollment is submitted is full, (2) the class is cancelled or (3) the student notifies the Office of Continuing Education prior to the deadline of the course.

Pam Wooten, coordinator of Continuing Education
Phone: 662-562-3349
