Total	15		15/16

TECHNICAL CERTIFICATE EXIT POINT

Students must pass with a "C" all LET coursework before entering sophomore-level classes.

All LET courses will be offered every school year online by approved Northwest faculty. Any online LET course to be taken and applied to graduation must either be through Northwest faculty or approved by the Paralegal Technology adviser. The LET 2923 Internship may be waived under limited circumstances.

LEGAL STUDIES (UNIVERSITY OF MISSISSIPPI 2+2 OPTION)

Adviser: McDavid

This program is designed to transfer to The University of Mississippi's program where the student may receive a baccalaureate degree. An Associate of Applied Science degree is awarded upon completion.

FRESHMAN YEAR

First Semester	Semester Hours	Second Semester	Semester Hours
ENG 1113, Eng. Comp. I	3	ENG 1123, Eng. Comp. II	3
BIO 1113, Prin. of Biology I*	3	BIO 1123, Prin. of Biology II**	3

* The student may choose either Prin. of Biology I, General Biology I, or Anatomy & Physiology I.

** The student may choose Prin. of Biology II, General Biology II, or Anatomy & Physiology II.

*** The student may choose either British Literature, American Literature, or World Literature.

**** The student may choose from Music Appreciation, Art Appreciation, or Theatre Appreciation..

Precision Manufacturing & Machining Technology

Advisers: Covington, Gilliam • Offered at Senatobia campus only

Career Certificate • Technical Certificate • Associate of Applied Science

Precision Manufacturing and Machining Technology is an instructional program that prepares individuals to manufacture metal parts on machines such as lathes, grinders, drill presses, milling machines, and Computer Numerical Control equip-

ment. Included is instruction in making computations related to work dimensions, testing, feeds, and speeds of machines; using precision measuring instruments such as layout tools, micrometers, and gauges; machining and heat-treating various metals; and laying out machine parts. Also included is instruction in the operation and maintenance of computerized equipment.

Precision Manufacturing and Machining Technology is an articulated program designed to provide advanced and technical skills to its students. Entry into the postsecondary program is based upon mastery of Baseline Competencies which are taught in the secondary programs. Students who do not possess such skills must complete additional coursework in order to graduate from the program.

Special admissions requirements: Students who wish to enroll in the Precision Manufacturing and Machining Technology program must:

1. Students must submit necessary records and credentials prior to the semester of entrance including, but not limited to, a current negative 5-panel drug screen.
2. Students must provide their own tools. Please see adviser for current tool list.

A student successfully completing the technical program will receive an Associate of Applied Science degree. Students in the program will complete NIMS credentialing.

FRESHMAN YEAR

First Semester	Semester Hours	Second Semester	Semester Hours
MST 1116, Power Machinery I.....	6	MST 2714, CNC I	4

Total	15	Total	17

*Courses required in addition to Career Certificate courses for Technical Certificate

Students must receive a grade of "C" or higher in all MST coursework prior to progressing to the next semester or completing the program.

Respiratory Therapy

Advisers: Lenox, McMinn • Offered at DeSoto Center-Southaven only
Associate of Applied Science

Respiratory Therapy is the allied medical discipline that works under the direction of a physician to assist in the diagnosis, treatment and management of patients with cardiovascular and pulmonary disorders. Those patients range from premature infants to post-operative patients to the aged. During clinical practice the student will rotate through area hospitals where preceptors and clinical instructors will work closely with them allowing direct patient care.
