

How to create a HESI account

1. Go to [Students - Shop Online for Elsevier Products | Evolve](#)
2. Click “My Evolve” (see picture below, see yellow arrow)

3. Next click “create account”, in upper right-hand corner of page

4. **Make sure you write down your user name and password. You will need this in order to test. We will not be able to provide you with this information.**

Next, you will need to decide if you are testing in person on the campus you are wishing to attend or if you would like to test via online proctor. Testing on campus will cost \$55.00. Testing via online Proctor will cost \$70.00. There will be **only three** opportunities to test on the campus of your choice. You may choose **only one** date for both online and in person campus testing. There will be limited seating at both campuses for in person testing. Online proctoring will have multiple dates available from August 1, 2021 through October 29, 2021.
